Bug ID	BUG001
Title	Unrelated Items Appear in Search Results for "dress"
Date Reported	2025-9-13
Reported By	Raghdaa Moustafa
Module	Homepage Search
Description	When a user searches for "dress" on the homepage, some items in the search results do not contain the term "Dress" in their names. This issue leads to irrelevant products being displayed, potentially confusing users who are looking for specific products related to "Dress."
Steps to Reproduce	<ol style="list-style-type: none">1. Navigate to the homepage.2. Enter "dress" in the search bar.3. Click the search button to perform the search.4. Review the search results displayed.
Expected Behavior	All items in the search results should include "Dress" in the product name, ensuring relevant search results for the term "dress."
Actual Behavior	The search results contain items without "Dress" in their names, such as "Faded Short Sleeves T-shirt" and "Blouse".
Severity	Major (Search is a core functionality of an e-commerce store.)

Priority	High (impacts the customer journey directly).
Status	Open
